Change from White to Red. For many years Somers' delivery wagons have always been painted white, year after year, and have become well known to the public eye on that account. Of late years, owing to change in methods of keeping dust down on streets, it was practically impossible to keep these wagons clean and white, the oil and tarvia from the street drying into the woodwork, From now on Somers' wagons will be painted a very pretty red, with black striping.

TOBACCO TOWN.

Following are extracts from an address delivered by Col. A. D. Watts, collector of internal revenue for the Fifth district of North Carolina, at a smoker given by the Twin City club. Winston-Salem, Feb. 4th, 1916: Some Comparisons.

"Winston-Salem is supplying onefourth of all the chewing and smoking tobacco consumed in the United States, besides exporting vast quantities to foreign lands. This statement is taken from the report of the commissioner of internal revenue for the first quarter of the present fiscal year and from private advices from Washington, as to the second quarter, which ended Dec.

Your city is making one-seventh of all tobacco products—chewing and smoking tobacco, cigars, cigarettes and snuff-manufactured in the United States. Your manufacturers are pay-ing on an average about \$37,000 a day revenue taxes to the government and the amount is increasing from month to month. When your government building, much the handsomest in the state, was completed last July at a cost of \$250,000, your newspapers made the statement that the taxes paid in your city to Uncle Sam for the first eight days of its occupancy would pay for it. Since September it has taken only a fraction over seven average days' collections here to equal its cost So far this week Mr. Cranford has taken in \$206,428.50. I predict that before 1916 shall have ended your average weekly payments to the govern-ment on tobacco will more than pay for this magnificent building, leaving the collections for the other 51 weeks as clear profit to the government. Tobacco Shipments.

"Winston-Salem is shipping on an average each week day to all parts of this country and to foreign lands at least \$150,000 of tobacco products. "In conclusion, Winston-Salem man-ufactures more tobacco, all tobacco products are taken into this statement, than any other city on earth, little or big. Industrially, she is easily first in

### POETRY

THE MOTHERHOOD HOUR.

The motherhood of womanhood is virtue whole and true.
The matron-mind is master-mind,
whichever way we view.
For life is ail a family, and man is
still a child,
Whom mother-wil defends at last from
passion rank and wild.

What's wisdom in the sagest man but patient mother-love?
The mightlest are the merciful, in this life or above.
Men hope they draw their words from God to strengthen each the other; From God maybap they something get, but mostly is it—mother.

What may the mightlest monarch do
but lace with love his power.
And kindly plan for each and all the
goodness of the hour?
The state is but his family, his aim,
his pride, his care;
To rule he learns from motherhood and
learns it unaware.

If bloody battles led to good, and pas-Then might the glory born of war be something safe and sure.
But it's a shame! The nursing and the methering of useful ends and aims
These give to manhood all the good, though multiplied the names. What's Christ but motherhood in man?
The child upon his knee
Is far the linest picture in his childless history.
The merciful, the masterful, the motherful are one;
and such is still the powerful when all is said and done.
